

MEMORANDUM FOR **Rich DeRosa, Maximum Throughput & Environmental**

FROM: DeLease Hardaway, National Print Strategy

SUBJECT: MAX Web Cleaning Equipment

Rich, since the installment of your equipment we have seen many improvements in our Correspondence Production Services – West print environment. The cleaning of the printer for paper dust and toner dust used to take about fifteen minutes per printer per shift. Other advantages are the reduction of paper static and the room temperature is cooler and we are saving energy.

Your company has been a pleasure to work with and very customer orientated. Thanks for your professionalism and Web Cleaner.
